J. Construct. Steel Research **16** (1990) 343–344

CONTENTS OF VOLUME 16

Number 1

A Shear Lag Analysis for Composite Box Girders 1
V. KRISTEK (Czechoslovakia), H. R. EVANS &
M. K. M. AHMAD (UK)

Buckling of Stepped Crane Columns 23
D. J. FRASER & R. Q. BRIDGE (Australia)

Design of Thin-Plated Steel Box Columns under Biaxial Loading . . . 39
J. Y. RICHARD LIEW, N. E. SHANMUGAM &
S. L. LEE (Singapore)

Shear Displacement in Bonded Structures 71
JEENARAINSINGH LUCKYRAM & ALAN E. VARDY (UK)

Calendar 85

Contents of Related Journals 86

Number 2

Behaviour of Axially Loaded Tubular V-Joints 89
S. SCOLA, R. G. REDWOOD & H. S. MITRI (Canada)

Behaviour of Flexible End Plate Beam-to-Column Joints 111
A. K. AGGARWAL (Papua New Guinea)

Simple Slenderness Limits to Control Instability in Plastically-Designed Sway Frames. 135
H. SCHOLZ (Republic of South Africa)

Verification of Pseudo-Dynamic Testing of Steel Members 153
A. S. ELNASHAI, A. Y. EL-GHAZOULI & P. J. DOWLING (UK)

Calendar 163

Contents of Related Journals 167

J. Construct. Steel Research (**16**) (1990)—© 1991 Elsevier Science Publishers Ltd, England.
Printed in Great Britain

Number 3

Analysis of Beams with Non-Uniform Temperature Profile due to Fire Exposure 169
I. W. BURGESS, J. A. EL-RIMAWI & R. J. PLANK (UK)

On Combinations of Load Effects 193
P. MAREK & W. J. VENUTI (USA)

The Stiffness and Strength Requirements for Platform-Beams in an Industrial Hall 205
TONG GENGSHU (People's Republic of China)

Buckling Tests on Cold-formed Square Hollow Sections of Steel Fe 510 . . 221
ERKKI NIEMI & JUSSI RINNEVALLI (Finland)

An Approach to More Complicated Lateral-Buckling Problems 231
H. DE JONG (The Netherlands)

Calendar 247

Contents of Related Journals 251

Number 4

Extended End-Plate Connections Under Cyclic Loading: Behaviour and Design 253
R. M. KOROL, A. GHOBARAH & A. OSMAN (Canada)

On the Efficiency of an Eccentric Brace on a Column and the Collapse of the Hartford Coliseum 281
TONG GENGSHU & CHEN SHAOFAN (People's Republic of China)

The Out-of-plane Buckling Strength of Through-type Arch Bridges . . . 307
TATSURO SAKIMOTO & TSUTOMU SAKATA (Japan)

Guidelines for the Design of Braced Frames with Semi-Rigid Connections. . 319
JEAN-PIERRE JASPART & RENÉ MAQUOI (Belgium)

Stability of Built-up Beams and Columns with Thin-Walled Members . . 329
JACQUES RONDAL & MAJID NIAZI (Belgium)

Calendar 337

Contents of Related Journals 341
